From: VA Dental Clinic

The VA Dental Clinic is very excited about being chosen to be the cover feature in the June issue of *Doctor of Dentistry Magazine for Dallas/Fort Worth*. We are proud to present our new facility to the local dental community and to inform them of the quality services we provide.

Each month a Dallas/Fort Worth area dental practice is selected for the profile cover story. Spotlighting the new VA Clinic at this time while America's patriotism and military support is high is very timely. *Doctor of Dentistry* is a high quality 4-color publication for and about the dental industry in our local area. The magazines are mailed free of charge to 3,000 dental professionals.

The VA has been asked to supply a list of people and companies who have been a part of the success of the new clinic. We ask you to talk to LuLu Stavinoha, publisher of *Doctor of Dentistry* and discuss the opportunities for your company in this issue.

Please understand that there is no requirement for advertising participation on your part. However, we would be honored if you chose to promote your association with us as an example of the quality of services that you provide to the local dental industry.

We have given your name to LuLu Stavinoha and asked her to give you a call, or you can reach her at 214-629-7110. You can email her at: lulustavinoha@sbcglobal.net
